

DUROSOFT

GMS

THE PERFECT STARTING POINT FOR CREATING A NATURAL RANGE OF PERSONAL CARE PRODUCTS. DEVELOP INNOVATIVE FORMULATIONS USING THE DUROSOFT® RANGE TO CREATE TAILORED SOLUTIONS SPECIFIC TO YOUR CUSTOMER NEEDS.

Durosoft GMS is a naturally derived viscosity modifier and emulsifier, made from vegetable derived glycerine and Rapeseed Oil. It builds texture and consistency in oil-in-water and

water-in-oil emulsions. Glyceryl Stearate is known to build lamellar structures mimicking the skin structure. GMS provides the lipidic components, giving excellent emolliency.

CHARACTERISTICS

- › *Emulsifier*
- › *Naturally derived*
- › *Skin friendly*
- › *Viscosity modifier*
- › *Ethoxylate free*
- › *COSMOS pending*
- › *Emollient*
- › *PEG free*
- › *Co-emulsifier*
- › *GMO free*

WWW.STEPHENSONPERSONALCARE.CO.UK

INCI Name: Glyceryl Mono Stearate

HLB value: 4

Usage: 1.0% - 8.0%

Durosoft GMS is a naturally derived grade of Glyceryl Stearate

Storage: In a cool, dry place

Other names: Glyceryl Monostearate, Glyceryl Stearate, GMS

Shelf life (in original sealed container): 3 years

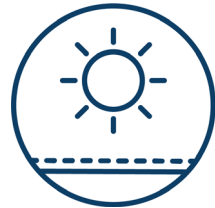

APPLICATIONS

Skincare

Haircare

Suncare

Colour cosmetics

Roll-on deodorants
