STAMP

Opaque, vegetable origin, high glycerine soap noodles, where Olive Oil (Olea Europa) can constitute up to 40% of the oils. Used for manufacture of extruded opaque soap bars.

Soap bar finishers only need to add chosen fragrance, colour and active ingredients, to achieve an excellent finish bar soap. Produces high performance vegetable derived soap bars.

- > Possesses the skin conditioning benefits of Olive Oil
- > Contains a high percentage of Olive Oil
- > Has superior skin moisturising properties through high glycerine content
- > Provides a pleasant skin feel
- > Has excellent cleansing properties with rich creamy lather
- > Has excellent processing characteristics
- > Improved manufacturing efficiencies with fewer rejects
- > Soap bars are less prone to damage due to high resistance against marking
- > Not derived from animals

MADE IN ENGLAND

PROCESSING GUIDE

Here we show you how to process our speciality **Extruded Soap Bases**.

Follow these steps below to create a range of soap bars using our speciality extruded soap bases.

- > Weigh out the desired amount of soap base required.
- > Add 1 - 3% of desired additives (fragrance, colour)
- > Mix together until soap noodles are evenly coated
- > Process the product through the plodder / extrusion machine
- > Extrude, cut and stamp to produce finished bar soaps

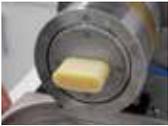

Open - Simply open the packaging and weigh out your desired amount of Soap Base.

Add - Select and add your additional ingredients such as fragrance, colour and extracts.

Mix - Mix the soap base with your additional ingredients until the soap noodles are evenly coated, we suggest no more than 3% max.

Extrude - Process the soap base through your machine (plodder) re-circulate the base in order to achieve consistent product.

Cut/stamp - Either by hand or machine cut your extruded soap billets / slugs, these can then be stamped and pressed into finished bar soaps. This process is often automated to increase productivity.

***Please note** - Production/processing may vary depending on equipment.

PACKAGING

Our range of **Extruded Soap Bases** are available in two distinct pack sizes:

- > 25KG /50LB
 - > 1,000KG / 2,200LB
-
